

Public Interest Directors

In order to protect the NPD principles, Public Interest Director roles were created to improve the transparency of the companies delivering the NPD projects and to ensure the non-profit distributing attributes are protected. There are a number of projects which pre-date SFT's NPD programme but which have broadly similar responsibilities and require the appointment of an "Independent Director".

Public Interest Directors and Independent Directors sit on the NPD company boards. They are nominated by SFT following an assessment process and appointed by the companies themselves. In addition to their duties to the company under the Companies Act, the Directors have a range of public interest duties. Typically, these are appended to the Articles of Association for each company which are publicly available on Companies House ([Get information about a company - GOV.UK \(www.gov.uk\)](http://www.gov.uk)).
